

## Lightworker Activation Series

# Pre-Activation Preparation

Completing this Pre-Activation Preparation process will serve you in being more open and ready to receive the incoming activations of the series. There are two ways you can approach this, you can either..

- 1) Complete the entire preparation process before beginning the series, Or..
- 2) Complete each day's preparation process before the live event/activation of that day.

Either of these approaches would work, consider and follow-through with the one that feels in greatest alignment with you.

We highly recommend you take the time to reflect upon, and respond to each of the questions from the perspective of your highest truth. You may also want to meditate on each question prior to writing out your response..
